TRUPOTAN® G

replacement syntan

Basis:	phenolic compounds
Appearance:	yellow brown powder
Charge:	anionic
Active matter:	approx. 93 %
pH value (1 : 10):	approx. 3

Properties:

TRUPOTAN G is a replacement syntan for the retanning of shoe upper leather and suede.

TRUPOTAN G brings about an increase in the fullness, especially in the more opened structured belly areas.

TRUPOTAN G improves the grain tightness.

TRUPOTAN G levels the dyeings without bleaching.

Application:

In the retanning normally 3 to 8 % **TRUPOTAN G** is recommended, based on the shaved weight. **TRUPOTAN G** encourages further penetration of the vegetable retannage, syntans and polymers.

Safety and storage:

When handling **TRUPOTAN G**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

The product should be stored in a dry, cool place.
