

TRUPOTAN[®] DCS

masking agent

Appearance:	yellow liquid
Basis:	combination of salts of dicarbonic acid
pH value (1 : 10):	approx. 5.5

Properties:

TRUPOTAN DCS is an auxiliary agent with balanced masking properties.

TRUPOTAN DCS improves chrome exhaustion and chrome fixation and provides even chrome distribution.

TRUPOTAN DCS contributes to an excellent full and fine grain leather.

TRUPOTAN DCS results in a very clear and even wet-blue colour.

Application:

TRUPOTAN DCS is added undiluted at the end of the pickle process or 30 – 60 minutes after the addition of chrome powder.

The usual quantity to be applied varies between 1.0 – 1.7 %, based on pelt weight.

Safety and storage:

TRUPOTAN DCS can be irritating to eyes, skin and mucous membranes upon direct contact. It is recommended to wear protective glasses and clothing.

The product should be protected against frost.

The information given in this technical leaflet is offered in good faith and is based upon our knowledge and experience of the products used.
