

# PASTOSOL<sup>®</sup> AZ

degreasing agent

<b>Appearance:</b>	white liquid
<b>Charge:</b>	anionic / non-ionic
<b>Active matter:</b>	approx. 54 %
<b>pH value (1 : 10):</b>	approx. 10

## **Properties:**

**PASTOSOL AZ** is a specially formulated, solvent-free, bio-degradable degreasing agent.

**PASTOSOL AZ** possess a broad pH-range activity.

**PASTOSOL AZ** is best usable for degreasing of pickled sheep skins.

The resistance to acids, salts and chromium is excellent.

When used in woolskin production, **PASTOSOL AZ** ensures excellent scouring and dirt removal properties whilst maintaining a pleasant handle and softness of the wool.

## **Application:**

**PASTOSOL AZ** can be used to good effect in the degreasing of pickled sheep skins. Quantities to be used will vary, depending upon the type and origin of the skins and their natural grease content. Up to 3 % in the de-pickling float followed by additions of 0.2 – 0.5 % in the subsequent washing process will normally afford excellent results.

In wool skin processing 2 g/l in soaking and up to 3 g/l in degreasing after tannage will produce excellent results.

**Safety and storage:**

**PASTOSOL AZ** can be stored for up to one year at least, if temperatures below 5°C and above 40°C can be avoided. On prolonged storage or extremes of temperature **PASTOSOL AZ** may exhibit some settlement which can be rectified by either warming and/or stirring the product thoroughly before use.
