

# TRUPON<sup>®</sup> PEW3

synthetic lightfast fatliquor for all softy leathers

<b>Basis:</b>	fully synthetic fatty esters
<b>Appearance:</b>	yellow brown pourable oil
<b>Charge:</b>	anionic
<b>Active matter:</b>	approx. 65 %
<b>pH value (1 : 10):</b>	approx. 7
<b>Acid stability:</b>	excellent
<b>Salt stability:</b>	excellent
<b>Chrome stability:</b>	excellent
<b>Light fastness:</b>	very good
<b>Heat yellowing:</b>	very good

## Properties:

**TRUPON PEW3** is a synthetic fatliquor which provides exceptional softening properties on a wide range of leathers.

**TRUPON PEW3** exhibits excellent emulsion stability to acids, salt and hard water.

**TRUPON PEW3** can be utilised to advantage in chrome tanning as well as the neutralising stage where it will assist in maintaining the tear strength of the leather.

When used in the main fatliquoring stage **TRUPON PEW3** will produce leather with outstanding softness and lightness coupled with fine mellow grain characteristics.

## Application:

**TRUPON PEW3** can be used alone or together with other anionic fatliquors where it will assist in stabilising the fatliquoring emulsion thus helping to improve penetration and lightness of the leather.

**Safety and storage:**

When handling **TRUPON PEW3**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

**TRUPON PEW3** can be stored for up to one year, if temperatures below 5 °C and above 40 °C can be avoided. On prolonged storage or extremes of temperature **TRUPON PEW3** may exhibit some settlement which can be rectified by either warming and/or stirring the product thoroughly before use.
