

TRUPONOL[®] SPN

fatliquor for softy leather

Basis:	sulphited oxidised natural and synthetic fattening substances
Appearance:	brown oil
Charge:	anionic
Active matter:	approx. 87 %
pH value (1 : 10):	approx. 7
Acid stability:	excellent
Salt stability:	excellent
Chrome stability:	excellent
Light fastness:	very good
Heat yellowing:	very good

Properties:

TRUPONOL SPN is a semi-synthetic sulphited fatliquor for all softy leathers.

TRUPONOL SPN is fish-oil free and can therefore be used to good effect in clothing leathers or suedes where it will produce excellent softness and a slightly waxy handle.

Leathers fatliquored with **TRUPONOL SPN** exhibit good light fastness and resistance to yellowing caused by heat or ageing.

Application:

TRUPONOL SPN can be used alone or in admixture with other anionic fatliquors.

Safety and storage:

When handling **TRUPONOL SPN**, normal safety precautions associated with the handling of chemicals should be observed. For more specific details please refer to our safety data sheets.

TRUPONOL SPN can be stored for up to one year, if temperatures below 5 °C and above 40 °C can be avoided. On prolonged storage or extremes of temperature **TRUPONOL SPN** may exhibit some settlement which can be rectified by either warming and/or stirring the product thoroughly before use.
